

CORRECTION

In Section 7, Page 7, there is a sentence that states that Susan Shelby Magoffin died at Bent's Fort. This is incorrect. According to the Chief Historian of the Colorado Historical Society, Modupe Labode, Magoffin had a miscarriage at Bent's Fort, where she stayed from late July through early August 1846. She and her husband went on to Santa Fe where she died in 1855. The National Register nomination had already gone on to Washington DC for review and listing by the Keeper and her staff and therefore could not be corrected before leaving our office.
