FOREWORD

Provenance - The James Vila Dexter Collection was transferred from the Dexter estate to the Colorado State Historical Society about January, 1946 by the City of Leadville, and consists of both personal and business papers. Among the personal papers are Dexter's personal bills, receipts, checks, certificates, etc.; material relating to Dexter's coin and gem collections, such as inventories, descriptions and bills; and family papers including wills, certificates, bills, tax receipts, etc.; as well as correspondence. There are a few photographs and miscellaneous items of memorabilia. The collection of business papers is more extensive and includes correspondence, bills, receipts, legal documents (contracts, agreements, material pertaining to litigation, etc.), inventories, maps, plats, notations, and statements of account relating to Dexter's real estate holdings, business and mining interests. The collection is accessioned with the number 34064 entered in the ~~1971-1972~~ Accession Book of the Library, State Historical Society of Colorado, approximately 7,000 pieces.

Significance - The records, contained in the Dexter Collection, of individual business enterprises or mining companies, are fairly extensive and provide a good deal of information concerning operations generally: expenditures, inventories, profits, policies and so forth. In addition, Dexter was, through these various interests, associated with some of Colorado's most prominent businessmen and miners such as the Wolcotts, N. P. Hill, H. A. W. Tabor, D. H. Moffat, J. J. Brown, John L. Jerome and others. This collection, therefore, is also of interest for the information it provides on some of the activities of these men.

James Vila Dexter was born, on August 14, 1836, at sea near New Orleans, Louisiana. He was, by the age of 25, paymaster of the Central Illinois Railroad; but at the beginning of the Civil War he entered the Union Army as First Lieutenant of Artillery. Dexter married Lisette Maria DeBar, daughter of a well known actor, in St. Louis, Missouri on April 28, 1864; four children were born to them: Lisette Marguerite, Helen Maria, and twins, Adda Maria and Harriett. Both Lisette and Helen died at the age of approximately one year. Dexter entered the Banking business, at the close of the war, as President of the Swedish Savings Bank in [Dixon, Ill.]

Dexter was attracted to Colorado by the mining excitement, and seems to have settled, first, in Central City in early 1869. In 1872 he helped organize the Union Bank of Denver which was the first safe deposit business in the city. In 1874 he went to Alma, Colorado where he organized two large mining pools: The Alma Pool Association and the Mt. Lincoln Improvement Association. Sometime [in early

1879/ he went to Leadville, Colorado and became active in mining there. The Inter-Laken property, fifteen miles from Leadville at Twin Lakes, was purchased by Dexter in May, 1881 and between 1883 and 1890 he added to the property by land purchases until it comprised 2147 acres. He built a hotel, stable, boat house, and pavilion there and extensively improved the grounds. The fixtures of the Union Bank of Denver were purchased by him in December, 1886 and the Union Deposit and Trust Company was subsequently incorporated; it failed in 1893.

Dexter was also interested in ranching and owned the Hacienda Ranch on the Conejos River and a cattle ranch near Castle Rock in Douglas County. In addition, he leased a portion of the Medano Ranch for hunting in the San Luis Valley. Among his town real estate holdings were lots in Crestone, Moffat, Alamosa, Pagosa Springs, and Alma, Colorado; and Oakland, California. Among Dexter's business and mining holdings were interests in Colorado Fuel and Iron (he was an organizer and a shareholder), Colorado Telephone Company, Chamberlain Cartridge Company, The Union Deposit and Trust Company, Dolphin Mining Company, Great Hopes Consolidated Mining Company, Compromise Mining Company, Alma Pool Association, Mt. Lincoln Improvement Association, Lost Canyon Consolidated, Deep Tunnel Mining Company, Castle View Mining Company, Snow Bird Mining Company, Timberline Mining Company, Ironclad Mining & Milling Company, Lone Star Consolidated Mining Company; he held heavy percentage interests in: Great Western Lode, Climax Lode, Bonanza Lode, Little Sliver Lode, James G. Blaine Lode, Confidence Lode, Crown Point Lode, W R B Lode, Dexter Lode (Gilpin County), Southern Boy Lode, Dexter Lodes (Lake County), Moose Lode, the Conestoga Gold Mining Company, the Hibernia Consolidated Mining Company, Alaska Gold Syndicate, Amie Gold Mining Company.

Lisette DeBar Dexter died in Denver on April 19, 1891. Dexter was remarried, August 17, 1897, to Josephine Becmer one of Denver's most successful elocutionists and a teacher at Wolfe Hall.

Dexter entered Masonry at Dixon, Illinois and remained active in it all his life, ultimately attaining the 33rd. degree. He was an ardent sportsman and a discriminating and enthusiastic collector of gems; coins; Chinese porcelains, ivories, and jades; oil paintings; and etchings. He was well noted for these collections.

James Vila Dexter died at Valley View Springs on May 23, 1899.

* Most of the information contained in this biography was taken from Edgar C. McMechen's article entitled "Dexter Cabin".

Notes On Organization of The Collection

The Collection is divided into four parts:

- Part I Correspondence
- Part II Personal Records of Jas. V. Dexter and family
- Part III Business Records
- Part IV Mining Records

The above divisions have been used for this index. Part I contains Dexter's incoming correspondence (File Folders 1-95), his outgoing correspondence (FF 96-105), and other correspondence not written to, or by Dexter (FF 106-165). The contents of the remaining three parts are explained by their headings.

The information contained in the index for Part I is listed under one of two headings:

Name under which is listed the name of the correspondent and the location of the letter in the collection--the number of the file folder (in parenthesis) followed by its numerical position in the file folder.

Related Information under which is found the place from (or to which) the letter was sent and any significant information regarding the sender (or recipient).

The information contained in Part II is listed, describing each piece as far as possible, together with its location in the collection.

The business and mining records, described in Parts III and IV, are listed alphabetically by business, mine, or location of real estate. Each piece is described individually as far as possible; its location in the collection is listed together with any other pertinent information re. the business, mine, or piece of real estate.
