

Kalisher / Rosenzweig Collection

MSS 351

The items in this collection appear not to be connected with any one person, family or organization. The material did not lend itself to categorizing by file folders, but presented itself as an unconnected collection of a book, a register, a catalog, etc. The nine items described below have not been numbered, but, nevertheless, they can easily be accessed. There are a number of photographs in the collection. They have been transferred to the Photography Department.

- Book of World War I cartoons – “Wally-His Cartoons of the A.E.F.” by Private Albion A Wallgren, U.S.M.C.
