

Colorado-Utah Construction Company
Mss 808

The Colorado-Utah construction Company incorporated in 1902 to build the Denver, Northwestern & Pacific Railway. The collection contains correspondence, financial records, cost estimates, and construction contracts and costs estimates dated 1902-1906. Records are incomplete so researchers are not able to develop a comprehensive view of company operations.

Note: File folder four contains an Index to the Estimates found through the collection and as such serves as the inventory for file numbers 4-24. The inventory will abbreviate the descriptions so it is advisable to consult the Index for fuller description of estimates.

Provenance unknown.

Contents:

FF	1	Transmittal of bills	Nov. 13, 1903-Feb. 5, 1904
FF	2	Transmittal of bills	Feb. 5, 1904-July 7, 1904
