PCRG is a nonprofit organization that conducts scientific research, trains students, and educates the public on the archaeology and paleoecology of the Great Plains and Rocky Mountains. PCRG’s public archaeology projects use state-of-the-art field and lab methods to investigate human communities and their relationships to the natural environment, from North America’s earliest American Indian inhabitants to nineteenth-century traders and settlers.

The Collaborative Inc. (TCI)
thecollaborativeinc.net

Historic Materials Analysis

TCI maintains one of the few private laboratories in the United States for the evaluation of historic mortar and plaster constituents, and the match of paint layers to the Munsell System of color notation. The firm has completed laboratory analysis of historic materials for private agencies, federal and state governments, historical societies, and private individuals since 1979. This evaluation of historic materials lets TCI provide critical data for the specification of historically appropriate replacement materials.

Rosin Preservation, LLC
215 W. 18th Street, Suite 150, Kansas City, MO, 64108

Rosin Preservation, LLC is a Kansas City-based historic preservation consulting firm that offers a broad range of services. Under the direction of company founder Elizabeth Rosin, the firm assists clients in rehabilitating historic properties, in complying with cultural resource regulations, and in capitalizing on the economic benefits of historic preservation. Clients benefit from the energy, knowledge and creativity of the Rosin Preservation team. We bring to the table decades of professional experience working with a vast spectrum of historic resources and preservation issues. All Rosin Preservation staff members meet the standards for preservation professionals, as defined by the federal government in 36 CFR 61
