Timber Creek Barn
Grand County/ Colorado
Rocky Mountain National Park MPS

Section number 9, 10 Page 1

On July 31, 2002, Rocky Mountain National Park moved the Timber Creek Barn to a new location near the Kawuneeche Visitor's Center. The park completed the restoration in September 2003.

The barn was moved about 8 miles to the south of its original location on Timber Creek in the Kawuneeche Valley to the NPS Grand Lake Entrance Utility Area. The building sits approximately 200 yards south of Columbine Lake Road, 450 yards west of the Kawuneeche Visitor Center. The barn sits in an opening of lodgepole pine forest and once again serves as a barn for park operations.

New acreage: less than one acre

New verbal boundary description: The new boundary consists of the footprint of the building and 10 feet out in all directions.
