INVENTORY
BEAR CANON COAL COMPANY
VALLORSO, COLORADO
1914 - 1956

COLLECTION No. 44

Compiled by
Lee Scamehorn

October 1974
Revised June 1982
Introduction

The Bear Canon Coal Company was organized in 1905 by
P. D. Miller, J. J. Abercombie, M. B. Easton and others of
Trinidad to mine and market coking coal from land at the head
of Road Canon, at the new community of Vallorso. Coal was
extracted largely from state land with little financial suc-
cess over a period of a dozen years. When the enterprise failed
to make royalty payments on time, the Colorado State Board of
Land Commissioners threatened to cancel the lease. This prompted
some stockholders -- Miller, Abercombie and M. P. Dunlavy -- to
seek the support of Charles Beuchat and William G. Plested in re-
organizing the company in 1917.

Beuchat came to Colorado in 1897 as general manager of the
United Coal & Coke Company, which operated mines in the Trinidad
district and elsewhere in Colorado. Under the terms of reorgan-
ization, Beuchat became part owner of the Bear Canon Coal Company
and for a time served as president and general manager of the
enterprise. Plested, a Trinidad banker, became part owner of the
Bear Canon Coal Company in 1917 and served as the firm's secretary
and/or treasurer from that date until the enterprise was dissolved
in 1957.

The reorganized Bear Canon Coal Company remained in operation
from 1917 to 1957. Coal mining was halted in 1955 because of a
long-term depressed market for solid fuel. The property was dismantled
and sold, and all assets distributed to stockholders.
The collection contains business and operating records (1905-1957); employee records, including agreements with the United Mine Workers of America (1927-1956); and alphabetical files from the company office (1917-1957). The latter include correspondence and documents pertaining to actions of officials, stockholders, and customers; the Vallorso Mercantile Company; sales contacts and contracts; marketing agreements; suppliers of goods and services; trades associations; transportation; leases; insurance (including workmen's compensation); litigations; and relations with governmental regulatory agencies. The collections also contains printed materials pertaining to coal mining; maps; drawings; and plats.
