

## MSS 92 Buell

The scrapbooks in the Buell collection generally have a date on the inside of the front cover that probably corresponds to the date it was completed. The items pasted inside are usually from within a year or two of the date on the cover, however they span in date from the 1910s to the early 1960s. They appear to be from a variety of newspapers, magazines, and publications. There does not appear to be any guiding organizational principle either between scrapbooks or within them. Most of the clippings are undated and range in subject from news to humor to popular history. The books are in boxes containing 2 or 3 each.
